

Dial-A-Dose and Regular Veterinary Syringes

Multiple and Single Dose Products for Large or Small Animals

The Dial-A-Dose® syringe line offers a large selection of syringes for every size animal. The syringes come in single dose, or multiple doses, from 3 cc up to 100 cc. They are used for the intramammary, rectal, and oral administration of animal medications.

Along with the Dial-A-Dose line, we offer many regular and single dose syringes for animal health. If your job does not need measured dispensing amounts, then any of these will also work well.

Features

- Controlled dispensing and precision placement of creams, pastes, and gels.
- Wide variety of molded-in-place nozzles.
- Snap-locking, double-seal tip caps.
- Self venting, ZeroDraft™ barrels.
- Available in FDA approved HDPE or Polypropylene (white, clear, or custom colors available).
- Custom calibrations, decorations, and labeling available.
- Available in 6, 15, 32, 36, 60, 80, and 100 cc Dial-A-Dose styles, or 3 through 100 cc single use styles.
- Integrally molded, one-piece plungers or two piece design with snap-on seal for improved compatibility and ease of dispensing.

One-piece plunger with integrally molded seal.

Two-piece plunger with seal, unassembled.

Dial-A-Dose plunger unassembled with locking ring and seal.

Dial-A-Dose plunger assembled with locking ring and seal.

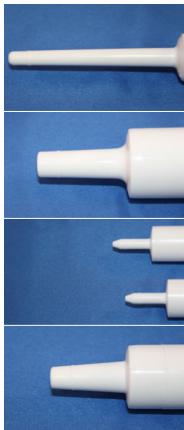

Benefits

- Locking ring allows the user to deliver the exact amount of material needed.
- Faster and easier to repeat dose than other syringes.
- Quick clean-up.
- Can be used on any size animal.
- Different nozzle sizes allow for use of any viscosity material.
- Can be used to dose once, and then capped. and saved until needed again.
